

## 5. Grove of Kleos

### 5.1 Story Line

Start from Rift 3 (Arena of Agility) and enter over the wall in the north to the Grove of Kleo. Enter the statue of Athena for the first sight over the area. You get your next aim, the Archive. There you meet little Athena. She gives you several jobs. First is to kill the Hydra. Find the **Rift A Serpentine Monster** at the bottom of the snakes (**Fang of the Hydra**, **Helm Piercing Wisdom**). Return to Athena at the Archive. Now you have to do hero things. First find the Stele of Atalanta and defeat the boar down under. Next is the Stele of Achilles. Repair the statue with the foot, so you can enter **Rift B Dolo's Stage of Trickery (Headress of Triumphant Victory)**. Next is Odysseus, where you bring a little ship from the head of the horse statue to the other side of the water. Throw the ship over, follow and put it on the pedestal. The stele of Herakles leads to the next rift. To open the mouth in the middle put two blocks from the back and a clone on the switches, then stand on the switch before. Now you can enter **Rift C The Hound of Hades (Visual Winged Helm of the Thunderer)**. After the rift you meet Athena again and get an owl, a key for a door at the temple. You find a hidden door with the oracle. After Athena wants to kill you fly to the Temple of Athena. To open it you have to place two fire pots on the right position. One is on the east side and belongs to the north side. Take the bowl right on the pedestal and put it on the pedestal in front of the statue behind. Now enter the temple and clean all red trash. Interact with the pedestal of the statue and talk to Athena. Travel to Athena's Sanctuary and enter the **Rift D Vault of Athena**. Hint for Medusa: if she is red, you can't hurt her. Return to the Hall of Gods. If you use fast travel you will be transported to the last chest at Clashing Rocks (Visual armor **Bristled Wintertide Pelt**). In the hall you give Athena her real form and ... Ligyron appears. And wants to do the hero things, which is your job. All gods hate him. Your new job is to be first on the peak. But first you can do some jobs at Kleo's. First we find the free Atalanta in her **Wraith E**. Now you have all four coins of the heroes. Travel to the great Athena statue and find at the ground north side a door where you can use the coins. And get your own statue. Travel to Athena's Sanctuary and finish there in the north the quest of Phosphor in **Daidolos's Treasury F. (Phosphor of Lit Cinders)**.
